Why a Regulated Profession?

The public has a significant interest in BC's forests:

- Forests cover 2/3's of the land-base
- About 95% of forests are publicly owned

To protect the public's interest in forests government made it law that people who care for BC's forests must be registered with the **Forest Professionals BC** so they can be held accountable for their conduct and practice.

- ~5,000+ Registrants

Exclusive Practice Rights since 1947.
